To Whom It May Concern,

Re: Manuel Rojas - Letter of Recommendation

I am writing in full support of Mr. Rojas immigration petition based on extraordinary ability with United State Citizenship and Immigration Services. Beginning in the year 2002 I was employed to conduct a number of Central America and South America International Elite Development Gymnastic Camps at Lider Gymnastic Club in San Jose, Costa Rica. It was in 2002 in San Jose, Costa Rica with many other national level Central and South American gymnastic coaches that I had the professional pleasure to meet Mr. Manuel "Manny" Rojas from Quito, Ecuador.

Mr. Manuel Rojas became an immediate assistant in these elite development training camps; was extremely valuable in my teaching and coaching at these International Gymnastic Camps, precipitated by his high level of gymnastic knowledge, command of the English language and excellent spotting ability. During this International Gymnastic Camps in Costa Rica; I noted that Coach Manny; was a true "student of the science" of the multi-disciplines required to become a top level gymnastic coach; i.e. his excellent grasp of kinesiology, physiology, nutrition and sports psychology were truly of international calibers.

Mr. Manuel Rojas comes to you highly recommended to all levels of artistic gymnastic coaching requirements in the United States; including levels from beginning, intermediated and advanced gymnastics. He can contribute immediately to any US Gymnasium that can tap his years of experience in Gymnastics. I fully support his immigration application. He will prove to be an invaluable asset to the athletic coaching and particularly gymnastics coaching in the United States. He is certainly the kind of immigrants that this country welcomes.

Sincerely,

Gary R. Goodson Sr.

To Whom It May Concern,

Re: Manuel Rojas - Letter of Recommendation

I am writing in full support of Mr. Rojas immigration application with United State Citizenship and Immigration Services. For the last two decades I have worked in the development of gymnastics throughout the world. I've coached at 12 World Championships for 6 different National Federations, produced 3 Olympians, and conducted International Olympic Committee Development Courses for 8 different countries. Manuel Rojas was one of my gymnasts and represented Ecuador in the 1993 World Championships.

Mr. Manuel Rojas through his experience internationally, his high level of gymnastic knowledge, command of the English language and excellent spotting ability is a true "student of the

science" of the multi-disciplines required to become a top level gymnastic coach. Simply put, as a world-level competitor and coach, Mr. Rojas is a distinguished person in international gymnastics, and would be an extraordinary asset to any American program which would have the opportunity to interact with him.

Mr. Manuel Rojas comes to you highly recommended to all levels of gymnastic coaching requirements in the United States; including levels from beginning, intermediated and advanced gymnastics. He can contribute immediately to any US gymnasium that can tap his years of experience in gymnastics. I fully support his immigration application.

Sincerely,

Jim Holt

Re: Manny Rojas

Dear Sir or Madam,

I take great pleasure in recommending Mr. Manny Rojas for obtaining an immigration petition to live and work in the United States. I have known Manny for nearly three years and have employed him as a personal coach. My experience working with Manny was enjoyable and the results have been extraordinary. Three years ago, my health was not good and I was obese. Today, I feel wonderful and wear a size 8. My doctor is very impressed with the results in terms of my blood chemistry and has encouraged me to continue the approach to health and wellness that Manny introduced to me. I would like to take this opportunity to expand upon Manny's qualities that make him an extraordinary coach.

Manny is very dedicated. He was attentive to me early in our working relationship by listening to my needs and setting clear expectations for me. He set the bar high and provided the necessary support so that I could meet the goals. He did research specific to my unique health concerns and adapted my program so that it would optimally meet my needs. He met with my family to gain their support and took me to the grocery store to teach me what foods to buy. He understood that I would have to utterly transform my life and broke it down into manageable steps for me. His attention to detail was evident as I was able to progress through the program and began to feel better within the first month.

Manny is enthusiastic. Upon meeting Manny, I knew that he loves gymnastics and fitness. Because of the struggles he experienced along his personal journey to excellence, he is empathetic regarding the struggles of others. He is constantly motivating, even as he challenges you to do more. With Manny, everything is fun and everything is attainable. I saw Manny work with children and heard reports from my own children who interacted with Manny. His kindness and enthusiasm is not only suited to adults, but is very important for working with children. I saw children warm to him quickly and subsequently working to gain his praise. He is a fabulous, positive motivator.

Manny's rich and varied experiences have given Manny a unique and broad worldview. This is very refreshing and needed in the American culture. I believe that Manny is able to teach American children a perspective that is often lacking in our culture. This perspective allows the children to mature more rapidly to better meet the emotional challenges of intense competition.

Manny continues to seek excellence and offer his services to less fortunate individuals. He is a professional member of the United States Gymnastics for Artistic, Trampoline and Acrosports. He has received his certification for safety from the University of Gymnastics and is currently seeking all other certifications offered there. He created and maintains a non-profit sports institute in Ecuador with the mission to provide quality instruction to poor people ([www.coachmannyfitness.org](http://www.coachmannyfitness.org)). Further, he provides free training through YouTube (search "coachmannyrojasbasan"). He has a proven record as a successful trainer with elite athletes as well. He prepared dozens of champions in Ecuador in the areas of fitness, body building and power lifting.

Finally, in my professional life, I am the Director of Education and Training for the Iowa court system. Within that capacity, I have the opportunity to hire and manage people. As an employer and manager, I would be thrilled to hire Manny. The combination of his drive, his enthusiastic nature, and his passion for bringing out the best in all people would be a welcome addition to any program. He will surely be an asset to the gymnastic coaching field of the United States.

I would be happy to discuss Mr. Rojas's qualities with you further if you wish. My cell phone number is 515-250-9767 and my personal email is [jjuhler9767@live.com](mailto:jjuhler9767@live.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Juhler", written in a cursive style.
